Sebastián Orjuela Giraldo

Junior Software Developer

PROFILE

Software developer with experience in designing and implementing scalable, efficient, and well-structured solutions. Focused on backend development and process optimization, with skills in concurrent programming, database management, and APIs consumption.
Passionate about solving complex problems and continuously improving code quality.

PROFESSIONAL EXPERIENCE

LUMU TECHNOLOGIES
Software Developer – Intern | December 2024 – June 2025
I contributed to the development of technological solutions by building APIs, backend functionalities, and frontend components for internal applications. I participated in projects following programming best practices, version control, and agile methodologies, while also supporting system maintenance, documentation, and continuous improvement.
This experience strengthened my agile development skills and allowed me to deliver functional enhancements to internal tools that improved team processes.

ADDITIONAL EXPERIENCE

SUPERMERCADO LYA
Supermarket Assistant | July 2025 – January 2026
Provided customer service and supported checkout processes, ensuring efficient and organized service. Managed inventory organization and product control, ensuring compliance with internal procedures. Performed effectively in high-demand environments, working under pressure during extended shifts, and actively collaborated with the team to meet operational standards and daily objectives.

EDUCATION

Technologist in Software Analysis and Development
SENA | 2023 – 2025, Bogotá D.C., Colombia

Systems Technician
SENA | 2021 – 2022, Samaná, Caldas, Colombia

High School Diploma
San Agustín Educational Institution | 2022, Samaná, Caldas, Colombia

CURSES & CERTIFICATIONS

Google Cybersecurity Specialization
COURSERA | June 2025

Introduction to JavaScript Programming
UNIVERSIDAD DISTRITAL FRANSISCO JOSE DE CALDAS – GENERACIÓN TIC | March 2022

Digital Creative Industries
UTP – MISIÓN TIC 2022 | December 2022

SKILLS

Programming & Technologies:
Java, Spring-Boot, Python, FastAPI, Quart, PostgreSQL, MYSQL, MongoDB.

Tools & Concepts:
Git, GitHub, Docker, Podman, CI/CD, Microservices, REST APIs, Asynchronism

Soft Skills:
Clear and effective communication | Teamwork | Analytical thinking | Proactivity | Adaptability to change | Fast learning | Time management | Responsibility and punctuality | Empathy | Creative problem-solving.

LANGUAGES

Spanish: Native

English: Basic proficiency (A2 – CEFR)
